Surf & Yoga Retreat

- MOROCCO -

Hello!

I am Ella Gray, a yoga teacher living in this beautiful and magical country of Morocco.

I owned and ran a yoga studio in Hull for 5 years, I know first hand how difficult and time consuming it can be to organise a retreat abroad for your students.

As the teacher there's so many worries, the venue, the location, the food ...

I am here to help...

I've lived here for 3 years and have helped yoga teachers and personal trainers run successful retreats. I offer teachers a great venue, amazing food, good service, an organised and professional team with a price that is affordable.

As the saying goes... its not what you know, its who you know.

So I decided to work along side 2 fab guys from the UK who own and run one of the leading and most successful Surf & Yoga venues in the area, Surf Maroc.

In their words ..

Surf Maroc was founded by Ben and Ollie in 2003 with 5 boards, a few old wetsuits, and an even older Transit van.

With no grand scheme or master plan we have grown organically through demand and popularity. Shaped and nurtured by the desires and needs of our guests and under the inspiration of those who work here.

We're obsessed with surf and yoga, but it's the people who work with us and just as importantly, the people who stay with us, that create the special atmosphere that makes Surf Maroc what it is.

Today

Surf Maroc operates a collection of four epic oceanfront locations, each of which is conceived solely to provide surf and yoga holidays and run by a professional team of people who are passionate about hospitality.

Together, myself and team Surf Maroc make your retreat organization stress-free - From making your booking to organizing your airport transfer, from your surf lessons to your accommodation, there is someone making sure you are taken care of and having a good time.

L'Auberge

The reinvention of Taghazout's oldest accommodation venue L'Auberge. Upscale guest house style with a boutique vibe. Meters from the beach in the heart of the village the Auberge offers clean, simple but thoughtfully decorated and designed rooms at an amazing price.

Set over four floors in the centre of Taghazout bay, with the ground floor housing Taghazout's most popular restaurant, the L'Auberge is in the heart of the action.

Amenities

In the chill out lounge our tea/coffee station offers you the chance to enjoy a cup of the hot beverage of your choice any time of the day. Daily fresh fruits delivery will allow you to refuel energy after surf or yoga.

You can relax on the sofas, enjoy the swap book selection and the free wi-fi.

The rooftop terrace, sun-filled balconies and restaurant below come together to give the Auberge a real community feel. Kick back and enjoy the sunset from one of the beautiful terraces at the house. The first floor features a lounge area to relax with books and magazines.

The Auberge is right on Taghazout beach. Perfectly poised to watch the fishing boats come in and soak up the laid-back village atmosphere, staying at the Auberge is a unique Moroccan experience. Shops, cafes, restaurants, surf shops and all Taghazout has to offer are right on your doorstep.

The Location - Taghazout

Internationally renowned amongst travelers, surfers, and yogis for its laid back pace and world-class waves, Taghazout is a unique gem on Morocco's Atlantic coast.

Located 40 min from Agadir international airport, it's a short hop (only 2 to 3 hours) from most central European cities. It's the closest place for any European surfer to get year round warm water, perfect waves, and a unique cultural experience.

The Yoga Spaces

We have two spaces to practice yoga. Both of them overlook the ocean with an amazing view of the sunset whilst enjoying the sound of the waves against the shore.

One has a covered roof and is longer in shape. You can fit 16 – 17 mats in a row. With the teacher in the front.

We have 20 good quality yoga mats, yoga straps, blocks, eye pillows and blankets and bolsters.

The beach is also on the door step of the house, this made a beautiful setting for a yoga class at both the sunrise & sunset.

The second space is open top and is a square in shape. This space you could fit 2 rows of mats or up to 16 mats in a circle for the practice.
